

Gary Eaton's notebook -

Inside front cover a copy of the MCI exam form blank and attached to the outside of that slot, my casting instruction business card.

Section One - Casting & Fishing Resume I used tabbed dividers with subjects marked, **casting resume** 1 page long.

Listed Publications,

Teaching experience by date & affiliated facility with number of hours taught
Casting Education - list of training I received with name of mentor and subject
Fly-Fishing Experience - Listed ten pertinent locations and species represented
diversity of fishing and long-duration of involvement in the sport. (Belize SW to
Canada Lakes: West-Coast Steelhead to Irish Salmon: Ozarks and Rockies
to Andes and Alps)

If using another format either a table of contents or executive summary might be preferred.

Section two - Class Notes taken exactly from outlines and hand-out I use in my classes,

35- pages covering the following titles -

Preparing for Your Fly Casting Lesson

Roll Casting

Basic Overhead Casts

Fly Casting Accuracy

Angled Casts, Curves, Mends and Delicate Presentation

Classic Presentation Fly Casts and Mends

Fly Casting Hauls & Double Hauls

Wind Casting and Throwing Heavy Rigs

Spey Casts Adapted to One-Hand Rods

Overview of the CACP and CCI exam for my FFF local club

Notes from Becoming an Outdoors Woman Program by State Conservation
Department

Section Three - Casting Articles Published - 25-pages

Seven refereed publications in national press or international web sites

Casting Corner 12- issues published in local TU and FFF club newsletters

Dispersed Notes from my interactions in Study-Groups & Discussion Boards -
three topics

Section Four - CLASS EVALUATIONS FROM STUDENTS @50 pages

9-Question Form I used at each class the previous 2-years. I included the

unfiltered originals from each class of every evaluation I collected to that point. I estimate about 65% response rate.

The forms include instructions to give expanded comments on the back and to include e-mail if they would like a response.

Section Five - Study Library Four Pages

Lists the over 100 books I read or studied from in preparation for FFF testing
AND

Nineteen video programs I had taken notes on.

Section Six - Special Projects

Disabled Angling - pages I had prepared for a CCI study group until that group leader plagiarized my work and presented it as his own

9- Page Manual for Instructing Disabled Anglers to Cast that I submitted to an outreach group with this particular interest. The work died with the regional coordinator. This effort was overseen by an MCI mentor.

Section-Seven Casting Course Calendars - back cover inside slot

Over two-years of calendar dates, subjects, class size and co-instructors beginning when I achieved CCI certification.

All of the pages were single-spaced except course evaluations. Photos appeared within articles as published and a single photo on my resume about 2-inches x 3-inches.

So, the stuff was pretty dense

Gary & Group...

[GH] An important question is raised by Bob Hansell :

Gordy,

As a candidate, I have slowed down my journey towards Master's certification to experience a lot of different fishing, casting, and
